Page adjustments

PRODUCT PAGE ADJUSTMENTS

In HTML

No orphans - added non breaking space to to #coloredright p

decreased text size for smalled screens

In CSS - Changed mq's to min size instead of max (except 1)

```
/* changed to accommodae smaller screen*/
/*line24*/
#xxlarge {
    font-size: 40px;
}

/*Added font-weight to .navbar a*/
.navbar a{
    color:white;
    font-weight: 800;
    margin-left: 20px;
}

/*Added media queries to adjust sizing
  as you scale UP in size*/

@media screen and (min-width: 480px) {

  .navbar-brand{
    color:white;
    font-size: 38px;
  }
}

@media(min-width: 548px){
```

```
    #coloredright {
        font-size: 28px;
    }
    #xxlarge {
        font-size: 80px;
    }
}

@media(min-width: 768px){
    #xxlarge {
        font-size: 120px;
    }
}
```

HOME PAGE ADJUSTMENTS

HTML

Added additional weights to Montserrat

Inserted new footer

Changed line 63 to container p so that navbar and footer paragraph divs aren't justified

```
container p{ /* added container so only the text specific to page is affected*/
    font-size: 15px;
    text-align: justify;
}

changed navbar brand & mq

.carousel{
    background-color: #ffacac;
    max-width: 100% /* added width*/
}
.carousel img {
    border: solid 3px;
    border-color: #ff5c5c;
    margin: auto;
    max-width: 100%; /* added width and height*/
```

```css
        height: auto;
    }

    /* restructured Best Seller HTML - this is the CSS for it */
    .bestSeller{
        margin: 0 auto;
        padding: 0 10px 40px;
        color: #161e67;
    }
    .bestSeller img{
        border-radius: 10%;
        max-width: 100%;
    }

    .bestSeller h2{
        margin-top: 30%;
        text-align: center;
    }
    .bestSeller p{
        padding: 0 10px 80px;
        text-align: center;
    }
```

Here is the restructured HTML

```html
<div class="container">
        <div class="bestSeller">
          <img src="assets/Images/Products/mixberry.png" alt="bestSell">
        <!-- </div> -->
        <div class=copy>
          <h2 class="headline">Our Best Seller!</h2>
          <p>Our Huckleberry Jam is how we started, the start we set off on a
          mission to provide the best product possible, with you in mind. Join
          the thousands of people already enjoying it, from using it in stove
          top recipes, to spreading it over your morning toast, this versatile
          spread will bring you taste buds joy!</p>
          </div>
        </div>
```

Media Queries for Best Seller section and clearing the space below:

```css
@media screen and (min-width: 768px) {
.bestSeller{
    display: flex;
    align-items: center;
```

```css
        padding-bottom: 100px;
    }

    .bestSeller img{
        max-width: 45%;
        float: left;
        padding: 0 1em 3em;
     }
    .bestSeller h2{
        text-align: left;
        font-weight: 600;
    }
      .bestSeller p{
       float: right;
       margin: 0;
       text-align: justify;
      }

      .bestSeller:after{
         clear:both;
      }

      .w-100{
         padding: 50px;
         clear: both;
      }
}

/*Removed section below. Wasn't needed */container p{
    font-size: 15px;
    text-align: justify;
}
```
